

WILSONART® HIGH WEAR LAMINATE

When you have a lot of traffic and need a surface that's both attractive and scuff resistant, consider Wilsonart® High Wear Laminate.

Built to be up to five times more resistant to scuffing and abrasion than conventional laminate, High Wear Laminate is a low cost upgrade for just about any setting. Available in most Wilsonart® Laminate designs and a wide variety of sizes, there's a High Wear Laminate style to fit your need.
