

# EDUCATION

Educational facilities today demand a cost effective material that can withstand the abuse from heavy traffic and continuous use. The composition and performance of Wilsonart® Solid Surface balances aesthetics and durability with easy maintenance. Its renewability keeps surfaces looking new and clean when others have faded and worn. More serious damage can be repaired, avoiding extensive replacement costs of other materials. Renewability and repairability make Wilsonart Solid Surface an affordable alternative for a variety of applications in administration offices, dorms, classrooms and sports complexes.
